

5th Latin American Congress on
Biorefineries
From laboratory to industrial practice
January 7-9, 2019 - Concepción, Chile

www.biorrefinerias.cl

Media partner

The **5th Latin American Congress on Biorefineries** will be held in Concepción on 7,8 and 9 January 2019. Lectures, oral works, poster exhibition and parallel activities on the latest research and development in the areas of novel processes and bio-based products will be presented during these three days. We invite you to share your knowledge and experiences in this great platform of dialogue and multidisciplinary discussion.

The organization offers the following alternatives to the Associated Media wishing to participate:

1. **Reproduction of the logo and link to the Associated Media website on the Congress website.**
2. **Reproduction of the Associated Media logo in the printed programme of the Congress and reproduction of the logo and link to the website in the case of the online programme (pdf).**
3. **Reproduction of the Associated Media logo in the information included in the Congress communications.**
4. **Reproduction of the Associated Media logo in the printed abstract book.**
5. **Reproduction of the Associated Media logo and link to the website in the Proceedings online book (pdf).**
6. **Reproduction of the Associated Media logo in the branding at the Congress venue.**
